TVS iQube

A comfortable electric scooter for everyday city travel

ELECTRIC • QUIET • CITY-FRIENDLY

BATTERY	CLAIMED RANGE	TOP SPEED	CHARGING
3.5 kWh	**Up to 145 km**	**Up to 82 km/h**	**About 3 h 45 min**

A good choice for your everyday ride

The TVS iQube is a practical option for local travel, commuting and short city trips. Its quiet ride and easy charging make it suitable for customers who want to try electric mobility without petrol stops.

Features customers may appreciate

- Smooth, quiet electric ride for city commutes and errands.
- Digital display and connected features; exact display/features vary by variant.
- Q-Park Assist and hill-hold functionality are available on supported variants.
- Portable charger designed for use with a suitable household 15 A socket.

Range & charging note

The figures above are for the 3.5 kWh variant and reflect TVS-published IDC range and charging specifications. IDC range is a standardized test figure, not a guarantee of real-world distance. Riding style, load, traffic, weather and terrain affect range. Charging time is variant- and charger-dependent.
